

## List of Assamese Authors and their Pen Names (Pseudonym)

### What is a Pen Name (Pseudonym)

A 'Pen Name' or a 'Pseudonym' is a name that an author adopts and uses in place of their real name on the title page or byline of their works. It can also be a variation form of their own name in some situations.

### Why do authors use pen names?

A pen name can be used for a variety of purposes, such as enhancing the author's name recognition or concealing the author's gender. A pen name can also be used in distancing the author from other works, shielding the author from criticism for their writings, combining several identities into one recognisable author, or for any number of purposes pertaining to the work's marketing or presentation.
